

[Exhibition] Edogawa: monuments

EXHIBITION

“Edogawa monuments”

Brazilian artist Daniella Domingues will present her work “Edogawa: monuments” at the event at a park in Matsudo.

“Edogawa: monuments” is a series of photographs and a publication that reflects about landscape modification around the river banks and how these new elements can now be seen as an integral part of the landscape: wounds men has imposed on nature, and which nature has absorbed, transforming their meaning and accepting them in a new nature and a new aesthetic.

distribution / exhibition date : Saturday, 29th, March, 2014
